Availability: January 2022

### ♣ Profile ♣

---

- Third year computing degree student attending the National College of Ireland (2:1 average)
- Highly computer literate with experience of using various applications and programming languages.
- Strong performance in database modules, covering relational, NoSQL and Data-warehousing, including research and implementation in project work.
- Project experience in Java, Object Orientated Programming, HTML, CSS, Android development, SQL and currently learning C# and MVC .Net applications.
- Project experience in graphic design and video editing using Adobe Photoshop, Premiere Pro, HitfilmExpress with some knowledge of photography.

### ♣ Education ♣

---

#### 2019-Date| National College of Ireland | B.SC (Hons) in Computing

**Modules:** Software Engineering, Advanced Programming, Advanced Databases, Object Oriented Programming, Advanced Internet Technologies, Business Entrepreneurship and Web Development Course module in Appendix

#### 2014-2019| Moyle Park College, Co Dublin | Leaving Certificate

### ♣ Project ♣

---

#### First Year Project:

Developed a GUI application where the user is able to search and retrieve the data from MySQL. The data in the MySQL database can be added or deleted from the database using the Java GUI. When closing the Java GUI it will not lose data stored.

#### First Year Project:

Developed a short animation video made using Adobe Animate. Art was drawn manually from scratch. Applications used to develop this was Adobe Animate and Adobe Photoshop.

#### Second Year Project:

A web application based on a car shop using XML with associated XSLT and XML Schemas files. The XML content is retrieved and updated on an existing database. JavaScript/AJAX technologies were used for making dynamic web pages.

## ♣Skills ♣

---

- Flexible
- Attention to detail
- Hard Working
- Enjoy teamwork and cooperating with other people
- Fluent in English
- Very Easy to talk to
- Organized
- Enjoy Problem solving
- Responsible and reliable
- Friendly

## ♣Interests and Hobbies ♣

---

### Technology:

- Interested in engineers do their work online an example is TechLead who has worked for several companies such as google and Facebook.
- Currently learning for a driver's license.
- Enjoy Listening to music and playing/learning instruments such as the piano.

**Referees Available Upon Request**

## Appendix

### **BSc(Hons) Technology Management**

**Year 2**

**2020 – 2021**

Advanced Databases  
Business Entrepreneurship  
Data Communications and Networking  
Data Structures and Algorithms  
Introduction to Databases  
Introduction to Software Engineering  
Object Oriented Software Engineering  
Project  
Information Technology Management  
Web Development

### **BSc(Hons) Technology Management**

**Year 1**

**2019 – 2020**

Computer Architecture  
Introduction to Computers  
Introduction to Mathematics for Computers  
Introduction to Multimedia  
Introduction to Programming  
Managerial Foundations of Information Systems  
Object Oriented Programming  
Operating Systems  
Personal and Professional Development  
XHTML & Web Design
